

# CLOUD COMPUTING

Empowerment through Cloud Education

# Cloud Capabilities

Fast Lane specializes in multi-vendor cloud infrastructure training using a variety of delivery methods to best fit your needs. Get your cloud platform and data center training and certification in order to take full advantage of the power, agility, efficiency and cost savings of virtualized cloud infrastructure and services.

Fast Lane understands the key market dynamics and business challenges that are the driving forces behind the IT industry's cloud adoption. We help IT business leaders and their staff who:

- Are shifting from solutions based on dedicated, purpose-built appliances to solutions enabled by software and services running on lower cost multi-purpose gear
- Need seamless and common user experience across any device at any time whether at home, at work, or on the go
- Want to maintain infrastructure investments, while enabling unique new services with minimal CapEx
- Need to elastically address user demand for additional resources for special events
- See the growth of practical revenue-generating services tied to smart and connected devices
- Need to automate and accelerate the rollout of new IT services and solutions

Fast Lane has developed an Enabling Digital Business (EDB) strategy with a rich portfolio of business and technical training and sales enablement solutions that address all aspects of hybrid IT concepts, methodologies and technologies such as OpenStack, Virtualized DC, DevOps, SDN/NFV, Network Programmability, XaaS models, big data analytics, security, IoT/IoE, and more. Contact us today for more information on what is happening in the new world of cloud infrastructure, services and solutions.

## Enabling Digital Business

Cloud Computing enables convenient, on-demand access to a shared pool of configurable (computing and networking) resources that can be provisioned, moved and released with minimal management effort. This enables superior economies of scale and agility compared to traditional IT infrastructures. Fast Lane partners with leading technology vendors to empower you to maintain relevance and differentiation in today's dynamic cloud-enabled environment.

# Courses and Certifications

Learn about industry-leading technology vendors' solutions from subject matter experts who understand the key drivers that impact business outcomes.

## Cloud and Managed Services

- Fundamentals
- Data Center Virtualization
- Cloud Implementation
- Certifications/Tool Kits

## Business Transformation Certifications

- Business Value Specialist
- IT Business Specialist

# Popular Cloud Training Courses

## Cisco CCNA Cloud

- Understanding Cisco Cloud Fundamentals (CLDFND)
- Introducing Cisco Cloud Administration (CLDADM)

## Cisco CCNP Cloud

- Implementing and Troubleshooting the Cisco Cloud Infrastructure (CLDINF)
- Designing the Cisco Cloud (CLDDDES)
- Automating the Cisco Enterprise Cloud (CLDAUT)
- Building the Cisco Cloud with Application Centric Infr. (CLDACI)

## Microsoft

- Introduction to Azure for Developers (10978)
- Microsoft Azure Fundamentals (10979)
- Developing Windows Azure and Web Services (20487)
- Windows Azure Solutions with Microsoft Visual Studio 2010 (50466)
- Developing Microsoft Azure Solutions (20532)
- Implementing Microsoft Azure Infrastructure Solutions (20533)

## VMware

- VMware Cloud Automation: Design & Deploy Fast Track (CADFT)
- VMware vCloud Automation Center: Install, Configure, Manage (VCACICM)
- VMware vCloud Networking and Security for vSphere Professionals (VCNS)
- VMware vCloud Director: Install, Configure, Manage (VCDICM)
- VMware vCloud: Design Best Practices (VCDBP)
- VMware vCloud Automation Center Foundation (VCACF)
- VMware Cloud Orchestration and Extensibility (VCOE)
- VMware NSX: Install, Configure, Manage (NSXICM)
- VMware NSX for Internetworking Experts Fast Track (NSXFT)

## Red Hat

- Red Hat CloudForms Hybrid Cloud Administration (CL216)
- Red Hat CloudForms Hybrid Cloud Operations (CL218)
- Red Hat CloudForms Hybrid Cloud Management (CL220)
